

Cookie policy in connection with the use of this website

We use necessary cookies to make our site work and analytics cookies to help us make improvements by measuring how you use the site.

We may collect information about your computer including, where available, your IP address, operating system and browser type, for the purposes of administration and to report aggregate information to our business partners. This is statistical information about our users' browsing actions and patterns (e.g., how long your visit lasted, and the type of browser used) and does not identify any individual.

Cookies

Our website uses cookies. Cookies are small text files that a website stores on your device when you visit a website. We use cookies to recognise you and your preferences, enhance the performance of our website and collect analytical information for the benefit of our subscribers and business partners.

Cookies collect anonymous information about how visitors use our website including the number of site visitors, the source of visitors to our website and the web pages they visit. The table below explains the cookies our website uses in order to deliver its services efficiently and to enhance your experience. We do not use behavioural targeting cookies.

Session cookies allow us to track your actions during a single browser session, for example to remember the items returned from a search. They do not remain on your device beyond your session.

Persistent cookies remain on your device between sessions and allow us to authenticate you and to remember your preferences. We also use them to balance the load on our servers and thus to enhance your experience on our website.

Session and persistent cookies can be either first or third-party cookies – a first-party cookie is set by the website being visited. A third-party cookie is issued by a different website to that being visited.

Our site uses a mixture of first-party, session and persistent cookies to deliver its services efficiently and to enhance your experience. The only third-party cookies used by us are those provided by Google Analytics to gather anonymised information for the benefit of all web users. All our cookies fall within the ICC classifications Strictly Necessary, Functionality and Performance and none within the classification Behavioural Targeting.

Cookie	Purpose of Cookie
Google Analytics	These cookies are used to track visitor interactions. We collect information about how visitors use our site. We use the information to compile reports and to help us improve the site. The cookies collect information in an anonymous form, including the time of day and number of visitors to the site, as well as what site referred the visitor to our web pages and the pages, they visited during their time with us. Further Information: Google Data Privacy
Google Data Privacy Cookie: Session ID	Issued by our servers, session cookies are essential to allow you to proceed through many pages of a site quickly and easily without having to authenticate or reprocess each new page, form, or area you visit. Persistent cookies remain on your device between sessions and allow us to authenticate you and to remember your preferences. We also use them to balance the load on our servers and thus to enhance your experience on our website. Further Information: Google Data Privacy
WordPress	These are the WP session and user ID cookies. The number on the end is your individual user ID from the users database table and is stored on your browser for 1 year. The test cookie expires at the end of session. Further Information: WordPress Privacy

General – user controls

If at any time you wish to disable our cookies you may do so through the settings on your browser, but if you do so you may not be able to use certain important features of the website and/or that some sections of our website may not work as well as they otherwise would.

Website Links

Our site may, from time to time, contain links to and from the websites of our partner networks and affiliates. If you follow a link to any of these websites, please note that these websites have their own privacy policies and that we do not accept any responsibility or liability for these policies. Please check these policies before you send any personal data to these websites.
